Completed a variety of
online business courses
from the University of
Pennsylvania

Interested in completing an
MBA with a Leadership
Specialization or an Au.D.

PROFESSIONAL OBJECTIVE

I'm seeking an opportunity to apply my personal, professional, and academic experience towards providing exceptional client care to individuals seeking to improve their lives through better hearing.

EXPERIENCE

Wild Rose Audiology Clinic | Edmonton, AB | Winter 2019

Audiology Student Extern

During my final academic semester I will complete my externship at this busy private-practice clinic, where I hope to refine my assessment and amplification skills across both paediatric and adult populations using technology from a wide range of manufacturers.

Nova Scotia Hearing and Speech Centres | Halifax, NS | Summer 2018

Audiology Student Intern

Split time between the ENT department at the Dickson Hospital and the community clinic at Park Lance Terraces, working with a diverse caseload of individuals. Areas of particular focus included:

- Performed paediatric assessments
- Performed assessments of complex adult cases
- Administered ABR testing
- Fit and completed follow-up of bone-anchored hearing devices
- Provided tinnitus counselling and APD screening

Oticon Canada | Atlantic Canada | Summer 2017

Product Trainer

Educated hearing health professionals throughout Atlantic Canada on the latest technology offerings. Specific accomplishments include:

- Provided product training sessions to clinicians, ensuring they had the knowledge and tools required to best meet patient needs
- Built and maintained relationships with valued customers
- Connected clinic owners to the marketing and business resources required for their practices to thrive

Hiking & camping

EXPERIENCE

Wild Rose Audiology Clinic | Edmonton, AB | 2013 - 2016

Administrative Assistant

While completing my undergraduate degree, I developed a thorough understanding of what is required for a private audiology practice to be successful by serving in a variety of roles, including:

- Performed basic hearing aid maintenance, repair, and cleaning
- Supported clinicians by calibrating REM systems, cleaning equipment, and restocking supplies
- Processed both incoming and outgoing orders and repairs.
- Organized patient records, invoiced third party groups, and sent reports to physicians and patients
- Communicated with patients by answering phones, sending reminders, and booking appointments

LEADERSHIP

Speech-Language & Audiology Canada | 2017 - 2019

Director-Student; Audiology Event Working Group Committee

Ensuring student voices are heard at a national level, and empowering students to become leaders in their professions. Duties include attending and contributing to board meetings, maintaining relationships with student representatives, and working to advance communication health for all Canadians.

Dalhousie Faculty of Health | 2017 - 2018

Facilitator, Health Hack Interprofessional Mini-Course

Developed an engaging learning opportunities for health science students, where they applied design thinking and empathetic interviewing to address health care needs.

Dalhousie Health Science Student Society | 2018 - 2019

Program Representative Coordinator

Developed relationships between DalHSSA and the various health program student societies at Dalhousie University

Dalhousie SCSD Student Society | 2017 - 2018

Vice-President

Contributed to building a supportive community within the School of Communication Sciences and Disorders while representing student interests to faculty and administration.
